

September 10, 2023

To whom this may concern;

Julie worked at Viola Growth as an investment analyst intern during the summer of 2023. Julie has consistently demonstrated exceptional qualities and potential that make her an outstanding candidate for a career in investment banking.

She worked closely with the investment team members, and he was focused on the following activities during this period:

1. Deep analysis of the gen AI field as part of Viola Growth strategy discussion and decision for this field. The analysis included technological and business aspects
2. Market research and KPIs analysis with respect to deal flow opportunities in the Agritech, vertical software, and CRM stack fields
3. Deal flow creation and high-level analysis of potential dealflow pipeline
4. Supporting the investment team with other ongoing projects

Julie did the tasks with a lot of responsibility, accurate and detailed oriented, in a timely and reliable manner. She is professional, analytical thinker, hard worker, and has great communication skills.

I wish Julie a lot of success in the future and am sure she will be helpful to any organization.

I will be happy to give further reference if needed, please do not hesitate to contact me.

With best regards,

Tomer Meridor
